-- 64,668 missing review amounts
-- 3,180 missing review rating
-- 423 authors are missing for no apparent reason
-- 9,231 distributors missing
-- 4,064 missing prices
-- 49,014 missing published dates
-- category names doesn't always align properly (for example, some romance books are under the category parenting & relationships - true for Amazon Kindle in general though from personal experience)
